Mortgage

We have a large amount of money which we are anxious to loan.

If you already have a small mortgage we will pay it off and give you a larger loan.

If you purchased your property under agreement of sale and also owe other small debts, get a mortgage loan from us and pay off all of them. It is more satisfactory to have your payments all in one

If you wish to improve your property or if the repayments on your present loan are burdensome, consult

us regarding a new loan.

We issue cheques here, thus avoiding delays. We invite you to call and discuss with us your requirements, and we shall try to meet them.

Our office hours are 9 a.m. to 6 p.m. We are also open Saturday night from 7 p.m. to 9 p.m.

Dominion, Saskatchewan and Alberta Land Surveyor Fellow of the Surveyors' Institution, England

Estate Agent and Surveyor

I make a special feature of my business the investment of Capital for Eastern and Old Coun'ry Clients in Regina Real Estate

After six years' residence in Regina, during which time I have seen the population grow from less than 10,000 to nearly 45,000, and having during this time made a careful study of Real Estate values, I am particularly well able to advise my clients as to their investments.

Being familiar with all the leading cities in Western Canada and with their Real Estate values, I have no hesitation in saying that Regina Property at present prices is easily the best investment in the West.

FARM LANDS AND REGINA CITY PROPERTY

Seven years in the Real Estate business in Regina and in close touch with the development which has been so rapid has made us conversant with values in all parts of the city. This knowledge we feel makes us competent to advise judiciously on investments and offer you the benefit of our experience backed up with a long list of satisfied clients.

We sell Business Property, Warehouse Sites, Residential Lots, Acreages, and Houses in all parts of the city.

We have a large list of first class Improved Farms in Regina District and all parts of Saskatchewan, and some good prairie land, all of which offer a first class field for investment.

If you have property for sale, your listing will be appreciated and will receive our very best attention.

REMEMBER

The CITY DIRECTORY is the most effective and most economical method of reaching all the people all the time.

¶ Those who buy without looking at the list of those who sell do themselves a great injustice.

¶ The CLASSIFIED LISTS in the BUSINESS DIRECTORY form the very best BUYER'S GUIDE on earth.

¶ A modern, systematized, up-todate method of getting what you want.

Advertise Your . . . Good Things!

- Many a limping business is kept from healthful development by the firm's morbid aversion to publicity.
- Perhaps they are honestly so conscious of the excellence of their wares that they expect the busy world to search them out. But the busy world hasn't time.
- If you have a good thing to sell, proclaim it. The world wants good things, but it can't discover them in hiding places. Bring them into the open market by advertising them.

Preface

The 1913 Regina Directory is the record of a unique period in the history of the City. The growth and industrial development represented in this volume is relatively far in excess of the progress indicated in any previous issue.

Since the wave of prosperity first reached Regina in the early years of the present century, the city has steadily continued to enlarge and expand. Each year has set down figures of a wonderful development, always excelling the previous record, and constantly pushing Regina onward and upward to a pre-eminent place among the cities of the West. The cumulative result of the marvellous influx of population and capital in a decade, today finds Regina in a position seldom enjoyed by cities of the same size and age. The amazing progress of the city indicated in these pages, which the publishers have earnestly endeavored to justly represent, is a tribute to the energy and perseverance of those who have toiled ceaselessly to establish for the city of their choice a prestige, even in a country where rapid development is such a common feature.

To provide for the immense increase in information, and to prevent the book from becoming unwieldy, the publishers have substituted a lighter weight of paper to accommodate the additional names and entries.

The directory contains, as usual, street, alphabetical and classified sections. The data for the different divisions has been gathered and compiled by a carefully trained staff, and no expense or pains have been spared to make the contents of the book of the greatest possible value to its patrons. Special attention is directed to the Miscellaneous Section, complete with figures and statistics concerning the growth, development and industrial activities of the community.

In conclusion the publishers wish to thank the business fraternity for their liberal support of the advertising pages, and the public generally for their courtesy and interest in supplying the information that made this work possible.

Part V.—Pages 157 to 163

General Information, Dominion Government — Consular and Military.

City of Regina

PART I.

Regina is situated in lat. 50.30, long. 105, 357 miles north of Winnipeg and 1,125 miles east of Vancouver, and is served by the three transcontinental lines, viz., the Canadian Pacific, the Canadian Northern, and the Grand Trunk Pacific Railways.

It is the Capital of the Province of Saskatchewan, the seat of Government where the Legislative Assembly meets, and all Departmental and Executive Offices are located here. It is the Headquarers of the Royal North-West Mounted Police.

RAILWAYS

Regina is justly entitled to be termed the best served railway city in Western Canada. Eight lines of railway radiate in all directions from the city, and the C. P. R., C. N. R. and G. T. P. vie with each other in their endeavor to give Regina an excellent train service; 33 passenger trains entering and leaving the city daily.

The main line of the Canadian Pacific Railway bisects the city east and west. It is also the terminus of the same company's line from Arcola, which is continued through from Brandon, a line tapping a very rich and well-settled country to the southeast.

This company's branch lines north to Colonsay, Saskatoon and Bulyea give a good passenger service on each to the north country.

The G. T. P. main line between Regina and Winnipeg gives easy access to the beautiful chain of lakes in the Qu'Appelle Valley—a most delightful summer resort some 50 miles east of Regina.

Six lines of the Grand Trunk Pacific Railway for Regina is the programme of that corporation. The Regina-Melville branch has been completed from Melville, connecting at that point with the main "coast-to-coast" line, and, again, with the proposed branch to Churchill on Hudson's Bay.

These lines provide easy access to Last Mountain Lake, a beautiful lake some sixty miles long, the lower extremity of which is distant only twenty-five miles from Regina. This lake has already become a popular summer resort for the citizens of Regina.

Other lines of the Grand Trunk Pacific are: Southwesterly to Lethbridge, northwesterly to Edmonton, east to Brandon, and north to Prince Albert.

Regina is the southern terminus of the Canadian Northern Railway Company's line from Prince Albert, and also the terminus of the same company's line from Brandon, which line, being continued through to the Great Lakes, gives Regina the benefit of a competitive road through to the head of navigation.

The C. N. R. has also under construction a line westward, and, it is understood, contemplates the construction of various other lines out of the city, making a total of 21 lines when all are completed. A new union depot for the C. P. R. and C. N. R., thoroughly modern and up-to-date in every particular, has been erected and is now in use, but the C. N. R. has acquired considerable property in the east end of the city, and it would seem probable that this company will erect a passenger depot of its own in the near future.

The G. T. P. plans for 1913 include the erection of a station costing \$200,000, and a magnificient hotel, costing, when equipped, \$1,000,000, excavation for which has already been commenced. This investment, made by a company such the G. T. P., speaks volumes for its faith in the city's future.

INDUSTRIES.

The railway facilities assume an important factor in the development of a distributing point. Regina is the largest distributing point in the middle west. Her territory comprises 50,000 square miles, extending 115 miles south, 150 miles north, 100 miles east and 250 miles west, embracing 230 towns and villages.

The largest volume of trade distribution from Regina is that done by dealers in agricultural implements, threshers and engines.

Industries represented include wholesalers, groceries, fruits, stoves, scales and cream separators, hardware, furniture, soap, flour, cement, gasoline engines, stationery, boots and shoes, printers' supplies, etc.

Regina is also the financial headquarters for the Middle West, bonds of every description issued by municipalities and school districts being bought and sold.

Regina manufacturies include: A soap factory, three sash and door factories, brick plants, two iron foundries, a brewery, three aerated water factories, wire fence company, metal culvert factory, flour mill, gasoline tractor factory, petrified stone works, cement brick plant, paving and stone-crushing plant, mattress factory, cigar factory, abattoir and cold storage, tannery, printing and bookbinding firms, etc.

FRANCHISES.

Regina is one of the best paved cities in the West for its size, if not in the Dominion.

This year's programme includes additional street paving and granolithic sidewalks.

The streets are looked after by a well-equipped sanitary department and are kept scrupulously clean.

Regina's municipal buildings have all been constructed from the proceeds of the sale of its townsite lands, at a total cost of about \$200,000. The Central Fire Hall is one of the most complete in the Dominion, costing, with its new fire alarm system, about \$30,000. The new Fire Hall, No. 2, is erected on the north side of the track, in the centre of the wholesale district. The incinerator plant, costing \$40,000, is one of the most modern scientific systems for the disposal of garbage.

STREET RAILWAY

In 1910 it was decided to undertake the installation of a street railway system as a municipal interprise. The council had submitted to the ratepayers the question of granting a franchise to one of a number of companies who applied for it; but, notwithstanding that unusual difficulties would have to be overcome, they decided that it would be undesirable to grant a franchise.

The work of construction was commenced in the spring of 1911 and on July 29th, 1912, the first service was instituted, and a constant service has been maintained since that date.

The system has proved to be a much appreciated utility in the city, and for 1913 large extensions are contemplated.

ELECTRIC LIGHT AND POWER PLANT.

The electric light and power system is owned and operated by the city. This utility is not only self-sustaining, but revenue producing, showing a surplus of revenue over expenditure of \$102,000 in 1912. The generating plant consists of:

Six boilers, aggregating 2,000 h.p.
One 100 kw. Ideal engine type generating unit.
One 450 kw. low pressure turbine generating unit.
One 1,500 kw. high pressure type generating unit.
Two 400 kw. direct current railway units, vertical engine type.

Some 300 arc and 50 incandescent street lights are in use, and provision has been made for the installation of 300 additional arc lights during the year 1913. Provision is made in the capital estimates for 1913 for the sum of \$425,000 for the construction of a new power house complete with the most modern machinery and equipment, it being the intention, on completion of this building, to convert the present power house into a pumping station.

Provision is also made in the 1913 capital estimates for the sum of \$25,000 for investigating and reporting upon the construction and operation of gas works, and the preparation of plans and specifications, it being the intention to commence the construction of a gas plant early in 1914.

WATER WORKS SYSTEM.

The waterworks system is owned and operated by the city. The supply of water is obtained from springs and artesian wells at Boggy Creek, about eight miles north-east of the city. A dam has been built there across the creek at an elevation of about fifty-five feet above the city, which impounds about one hundred million gallons of water. Sixteen wells have been sunk through the clay to the gravel bed, found at an average depth of one hundred feet, and most of them are strong gushers, yielding sparkling pure water. In addition to the above, pipe lines have been laid in the valley to collect and convey the water to Barton Pump Well (capacity 270,000 gallons). Adjoining the pump well is located a pumping station in which two 80 h.p.

gasoline engines and two belt-driven turbine pumps raise two million gallons per day into the circular reinforced concrete, five million gallon reservoir on Tor Hill, which stands about one hundred and twenty feet above the city. The storage reservoir was designed by Mr. R. O. Wynne Roberts, consulting engineer, and is two hundred and two feet in diameter, depth of water being twenty-five feet. These different works are connected with the city by one fifteen-inch vitrified pipe line, ten-inch cast iron mains, and one eighteen-inch steel main. These trunk mains are capable of delivering by gravitation at the power house about four and one-quarter million gallons per day. It is proposed shortly to lay another twenty-seven-inch steel trunk main between Tor Hill Reservoir and the city, and this will deliver another million gallons per day. This main will also serve to convey water from the watersheds adjacent to and twice the area of Boggy Creek, when the demand for an increased supply of water requires same. About half way between Tor Hill Reservoir and the city there are two reservoirs having a combined capacity of 1,065,000 gallons, and at the city power house there are two more holding 650,000 gallons.

The water when it reaches the power house is pumped into the city mains by means of two horizontal direct action pumps, having a combined capacity of two hundred and fifty gallons a minute. New five million gallon steam-driven turbine pumps are on order and when installed the total capacity will be 8,600,000 gallons per day. The normal domestic pressure in the city is sixty pounds per square inch, whilst for fire purposes the pressure is increased to one hundred and twenty pounds, but the quantity pumped is less. In view of the rapid expansion of the city, a joint report, prepared by Messrs. Wynne Roberts and L. A. Thornton, was submitted to and adopted by the council, making provision for a system of trunk mains throughout the city, ranging from 27 inches to 10 inches in diameter, which will adequately provide for any possible development for a number of years and afford complete fire protection in every part of the city. Part of this scheme has already been carried out and a large portion of the work will be undertaken this year.

ANNUAL FINANCIAL STATEMENT.

The City of Regina for the year 1912 has assets, \$16,885,498.72; liabilities, \$6,038,362.81; surplus over liabilities, \$10,847,135.91.

Water Mains (supply mains)	13.5
Water Mains (distribution system)	30.9
Number of Hydrants	222
Number of House Connections	3,600

PARKS.

In different parts of the city grounds have been laid out for cricket, football, baseball, lacrosse and tennis, while the city has about 257 acres for park and recreation purposes. A splendid feature of the city is the children's playgrounds, located in different parts of the city.

Wascana Park.—Containing about 45 acres and situated to the south of the city, has a frontage of about a quarter of a mile along Wascana Lake, which extends for nearly two miles east, affording excellent facilities for boating, of which full advantage is taken. There is a large boat club building and a boat livery in the park. There is also a bathing house, which is open for the use of the public.

This park, adjoining as it does the grounds of the Regina College, and having an outlook over the lake to the Parliament Buildings and grounds, offers excellent facilities for development as an ornamental park.

Victoria Park.—Which contains over seven acres, situated in the centre of the city, is laid out as an ornamental garden.

Dominion Park.—Containing about eight acres, is devoted to athletic games. It is in the centre of the warehouse district and affords exceptional advantages to men employed in the district and to the athletic and sporting element of the public generally.

Alexandra Park.—Is used as a children's playground and is equipped with suitable gymnastic apparatus.

Wascana Lake.

A body of water situated at the southern part of the city, between the residential portion and the Parliament Buildings, in length approximately seven miles, and from three hundred yards to one-half mile in width. Recent improvements have added greatly to the appearance of Wascana Lake, and today it stands as one of Regina's valuable assets as a pleasure resort for boating and swimming.

The Parliament Buildings overlook the lake from the south side.

Exhibition Grounds.

Regina possesses a great feature in its Exhibition Grounds, which are admirably situated one mile west of the city on the north side of the C. P. R. tracks. Spur track accommodation has been provided and the C. P. R. runs a fifteen-minute passenger service when occasion arises.

These grounds comprise some seventy-six and one-half acres, having entrances at the east side with driveways, and passenger train entrance and stock entrance on the south side.

Improvements to the Exhibition Grounds have already cost over a quarter of a million dollars and still further improvements are to be made. There are now three large main buildings and two grand stands, fifteen well-equipped horse and cattle stables, four racehorse stables, and a large arena for judging, also a half-mile racetrack, complete in every detail, and a large building used as a secretary's office, and numerous other smaller buildings. Water works and sewerage extend through the grounds, while hydrants are placed at several places. All buildings are equipped with electric lights.

Civic Administration

CITY COUNCIL, 1913.

Mayor: Robert Martin.

Aldermen

Ward 1-C. Rink and Andrew Krauss.

Ward 2-T. B. Patton and J. M. Wessel.

Ward 3-L. A. Rounding and A. D. Millar.

Ward 4—E. B. Andros and D. J. McKay.

Ward 5-R. M. Halleran and M. B. Peart.

Standing Committees of Council for 1913.

- Finance.—Aldermen Peart (chairman), Patton (vice-chairman), Rink, Andros and Rounding. Meets on Fridays at 7.30 p.m.
- Works.—Aldermen Andros (chairman), Rink (vice chairman), Peart, Patton and Millar. Meets on Thursdays at 7.30 p.m.
- Markets and City Hall.—Aldermen Millar (chairman), Krauss (vice-chairman), Halleron, McKay and Wessel. Meets on Thursdays at 4.30 p.m.
- Waterworks.—Aldermen Rink (chairman), Peart (vice-chairman), Andros, Wessel and Millar. Meets on Wednesdays at 7.30 p.m.
- Fire, Light and Power.—Aldermen McKay (chairman), Halleron (vice-chairman), Krauss, Wessel and Rounding. Meets on Wednesdays at 4 p.m.
- Health and Relief—Aldermen Halleron (chairman), Wessel (vicechairman), Krauss, Millar and McKay. Meets on Tuesdays at 4 p.m.
- Parks, Boulevards and Cemetery.—Alderman Krauss (chairman), Millar (vice-chairman), Peart, McKay and Wessel. Meets on Tuesdays at 7.30 p.m.
- Railway.—Aldermen Rounding (chairman), McKay (vice-chairman), Halleron, Rink and Patton. Meets on Fridays at 4 p.m.
- Reception.—Ald. Patton (chairman), Andros (vice-chairman), Halleron, Rink and Rounding. Meets as required.

Anderson,—— Lunney & Co.

Regina, Saskatchewan

Farm Lands

We have for sale some of the best land in Western Canada, in parcels of from 160 acres to 10,000 acres. We deal only in first selections and guarantee to please our buyers

Improved Farms

We offer for sale some of the finest improved farms in the Regina District. Before buying, be sure to see us.

Regina City Property

No one can dispute the fact that Regina has grown very rapidly and has made great progress. The indications are that in the next few years Regina will double its population. This being the case investments in City property will net the investor big returns. Our years of experience are at your disposal, and if your money is placed with us for investment, our aim will be to please you. We will be glad to furnish any information regarding investments, or to send maps and pamphlets on request. If in the City, call on us. We will be pleased to see you.

Black Letters

¶ Those names appearing in BLACK LETTERS in this Directory represent the energy and push of the City. It is a pleasure for the Publishers to have the opportunity of making the public acquainted with them through these pages.

Those in <u>BLACK LETTERS</u> are the people who accomplish the wonders in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city of this magnitude. They are not drones and sponges who never support anything and gain by others' hard work and money.

When you patronize those in <u>BLACK LETTERS</u> you patronize men and firms who will patronize you in the same broad manner in which you patronize them.

Don't Forget

- Although a man may spend millions in advertising, he is poorly advertised if he cannot be found in the Directory.
- A large portion of good advertising reaches those who are not ready to buy, and when they are ready, they must consult the Directory.
- If you advertise at all, put your advertisement in the Directory and get the full benefit of all the other advertising you are paying for.
- But above all, have your advertisement in the Directory in order that you may be easily found by those who look—at the time they intend to buy.
- The CLASSIFIED LISTS in the Directory are the greatest Buyers' Guide in the World.
